MUSICAL INSTRUMENTS

DECKER BROS. PIANOS
The oldest and largest music house on the Pacific Coast. In order to maintain our reputation as the most progressive music dealers on the Coast, we have decided to open a branch store in Los Angeles, in order to give the people of Southern California an opportunity to buy goods at Eastern prices and terms, which is impossible for consistent dealers to do. We now have on route several carloads of pianos which will be sold at reduced prices to please the public. Any one having the slightest idea of purchasing will do well to call and see our stock and hear what we have to say.
KOHLER & CHASE, 323 S. Spring St.

PUT A

PIANO
In your home and be happy. It will rest and refresh you when you are weary and downcast and make life ten times as pleasant for yourself if you buy one on easy terms, either the Steinway, Decker Bros., Emerson, Fischer, Gabel or Pease. Call and talk it over with us.

LABOR QUESTIONS.

Status of the Various Unsettled Disputes.

The Great Northern Strike No Nearer Its End.

An Important Report on Conditions in Great Britain.

San Berdoon Boiler-makers Leave Town—President Debs Hopeful of Winning His Fight with the Coal-masters.

Associated Press Landed-mine Service.

SALT LAKE, April 30.—A special to the Tribune from Helena, Mont., says that the Montana Supreme Court today refused to issue a writ of mandamus ordering the Great Northern to operate its line of railway in this State, as it had been accustomed to, prior to the strike of all its trainmen. The court held that the proceeding was equivalent to asking the court to inquire and determine what would be a reasonable scale of wages for the men required to operate the road and then ascertain whether the requisite number of men could be employed at the wages determined. The court said it was not certain it had jurisdiction of the arbitration of these questions and power to enforce its decision should it decide them.

Furthermore, the court is not sure that it has jurisdiction to issue such a writ by reason of the relation of the railway property to interstate jurisdiction. In the United States Court the attorneys for the Great Northern read affidavits in support of their petition for an injunction restraining the strikers from in any way interfering with the operation of the road. The men were given a week to make answer. The men are camping tonight in the old Germania smelter building at Murray on the Rio Grande road and still hope that some means will be devised by which they can go back by rail.

EXPECTED TO WIN.

ST. PAUL, April 30.—We expect to win the fight in forty-eight hours," President Debs said today. He said he made the statement on authority of the general manager of another road, who told him Hill would grant the demands of all employees within that time. Passenger trains were sent out as usual today. One hundred deputies were sent to Breckinridge. President Debs claims the firemen and engineers stood by the union, notwithstanding the increased wages promised the brotherhood committee, but the company claims to have telegrams from engineers and firemen, announcing a determination to stand by the company. A conference is in session at Minneapolis between Debs and representatives of commercial bodies of the two cities, looking to a settlement by arbitration.

The strikers seem unwilling to consent to arbitration in any form. President Hill talked as freely as ever.

President Debs, of the union, is more confident, and President Hill, of the Great Northern, is more determined than at any time since the strike began two and a half weeks ago. Debs said he had today told the committee from the commercial bodies of the two cities

that the employees would like to meet Mr. Hill and talk matters over in their presence, having them act something in the way of an arbitration board. He made no formal proposal, but suggested this plan, not promising to be bound by their decision.

However, when Mr. Hill was asked about it, he promptly insisted that the suggestion was not a formal proposal, and that he could not consider anything until it came in a more formal way before him. He announced that he proposes to continue his work of running his own road; that the old men would be ordered to work, and when one of them failed to respond promptly, his place would be immediately filled by some of the large number of men he has heard of along the line ready to work.

TROOPS ATTACKED.

GRAND FORKS (N. D.), April 30.—A special train, bearing four companies of United States troops from Fort Snelling arrived today. There are 201 men, under command of Maj. J. H. Peters. Several misses were thrown at the train. At St. Cloud, Minn., the train was hit on the head with a brick, and another in the pit of the stomach with a coupling pin. At Crookston some one fired a shot at the engine. The train brought a pliedriver and two bridge crews to rebuild the burned bridges. As soon as these are replaced, it is believed a train will be sent through to the Coast.

Serious trouble is feared on the Montana Central, and possibly at Devil's Lake, N. D. A special from the Minn. Minn. Junction of the Great Northern and Eastern Minnesota, says that a mob of 200 is waiting to prevent any train going through.

DEFENDS MONTANA PEOPLE.

ST. PAUL, April 30.—Samuel Hill, president of the Montana Central road, said today: "I wish to deny the slander circulated about the people of Montana. I know the people there quite as well as the gentlemen from the white-capped district of Indiana. The Montana people are not the ruffians, thugs or cowards that the A. R. U. calls them. They do not resort to dynamite or to burning bridges at night."

TO BE LAID OFF.

VANCOUVER (B. C.), April 30.—In consequence of the dullness in railroad business 200 Canadian Pacific employees, principally machinists, will be laid off tomorrow. Reductions will be made in all departments.

THE OHIO CENTRAL'S CUT.

TOLEDO (O.), April 30.—General Manager Ferris, of the Ohio Central, has issued orders to cut the salaries of the men on May 1. Manager Ferris says this temporary reduction is rendered necessary by the coal strike, as half the road's business is in coal traffic.

A COMPROMISE SUGGESTED.

WASHINGTON, April 30.—Col. W. P. Read returned to Chicago tonight, without succeeding in getting the coal operators to agree to a conference looking to a settlement of the strike. He says: "The strike must be stopped soon to avert serious injury. In this crisis it is imperative that concessions must be made on both sides. The miner is entitled to better pay, but at the same time the operator has been forced to reduce wages through sharp competition and overproduction. I have suggested a compromise, which will give the miners an advance of from 15 to 20 per cent. in prices paid at the time of suspension, and a full restoration of rates when times will justify it."

SAN BERNARDINO BOILER-MAKERS.

SAN BERNARDINO, April 30.—The boiler-makers, who have been on a strike in the Santa Fe shops in this city for several weeks past, have given

up the fight and most of them have gone away. Today ten deputy sheriffs, who have been on duty guarding railroad property and protecting non-union boiler-makers, were discharged.

CHICAGO PAINTERS.

CHICAGO, April 30.—Two thousand painters struck today. The strike was aimed at the bosses who signed the call for a lockout three weeks ago.

CLEVELAND (O.), April 30.—Nearly eleven thousand brickmakers struck today for an advance of about 30 cents a day.

TO FREE THE CONVICTS.

KNOXVILLE (Tenn.), April 30.—All the free Coal Creek coal-miners went out today, leaving the convicts at work. The strikers openly threaten to free the convicts again, and trouble may follow.

SERIOUS TROUBLE EXPECTED.

ST. LOUIS, April 30.—Specials to the Republic from points in Illinois indicate that 500 more miners went out on a strike today. About three hundred and fifty miners from Springfield and Taylorville are on the way to Pana to force the miners out. Serious trouble is expected.

BRITISH LABOR.

The Duke of Devonshire Framing a Bill Relating Thereto.

LONDON, April 30.—(By Atlantic Cable.) The Royal Labor Commission has agreed upon a report compiled by the Duke of Devonshire. He says he could not recommend the direct establishment of boards of conciliation and arbitration by the State, but that a central department having means of procuring accurate information might do much to settle the difficulty. The difficulty of finding a suitable arbitrator might be overcome by giving a public department power to appoint an arbitrator.

The report considers it no advantage to institute a special labor department, but advocates a government inquiry with a view of remedying the confusion in the administration acts dealing with sanitary regulations and hours of labor for women and children, etc.

The commission heard only one side of the question of the eight-hour day so far as it concerns the great area controlled by the Miners' Federation, as that organization is to give evidence. The report points out that the miners are an exceptionally well-organized body of workmen who have not yet found any difficulty in doing for themselves whatever they desire in such matters as the regulation of the length of hours of labor. The Secretary of State has power, under the Factory and Workshop Act of 1891, to establish special rules for the conduct of manufacturing proceeds and which he may certify to be dangerous and injurious to health. According to this report the powers of the Secretary of State should be expressly extended so as to include the regulation of hours in certified industries. It is further suggested that when the administrative order deals with women and children, they should be considered final and that when men are concerned the orders should lie for a time upon the tables of both houses before becoming a law.

In regard to non-unionist labor the report says that the commission does not think it possible, by any legislation, to remove the causes of those serious conflicts which have taken place and especially in recent years in the less-skilled organized trades. The commission holds that non-unionist workmen should be protected, so far as possible by the public authorities and that individual liberty for masters to employ or the men to serve, whom they please should be always maintained. According to the report there seems to be a general desire among workmen as well as masters

for some clear definition of intimidation by picketing. Though employers urged the hardship of collective intimidation without acts for which individuals can be punished, the reports say that the commission is not prepared to recommend any change in the law.

The opinion is expressed that when a picketing takes the shape of besetting the entrance of a factory in a threatening manner it comes under the definition of unlawful assembly, but it is pointed out that moral compulsion may be exerted to great lengths in a way which the law cannot control and cannot usefully attempt to control. It is added, however, that there is a point at which it can intervene with decided effect without any alteration except the reduction of its precepts to a form which one may clearly understand.

The sanitary condition of labor is the last subject dealt with by the report. Though not directly leading to strikes or lockouts this condition has a considerable indirect influence upon the relations between employer and employee. The report says: "Some strong measure should be taken with a view to the improvement, or where that may prove impossible, the gradual extinction of the lowest class of work places in which the industries are carried on."

It is pointed out that these places are not only bad for the workers and demoralizing for the community, but they compete most unfairly. It is claimed that the law is observed or can be readily enforced. It is added in this connection that any reform of the kind proposed would at first throw out of employment the worst class of working people and might cause a temporary pressure upon the rates. It might also, still, according to the report, even drive some minor industries out of the country, but it is claimed that the country could spare them, since it would no longer tempt the immigration of a class of persons who can never get employment in large and well-conducted establishments.

The report considers that the remedy for bad relations between employers and employees will be found in the evolution assigning capitalists as well as working people to their proper position as servants of the community. It suggests eight hours for a day's work and a minimum wage. It urges that trade-union conditions shall prevail in all public employment; advocates a bold treatment of the unemployed problem and provisions for old age, and concludes with the statement that the whole force of the democratic statesmanship must be directed toward the substitution, as far as possible, of public for capitalist enterprise.

WOOTTON'S MURDER.

Some New Light on the Dark Mystery.

What Detective Lawson Has Found in Prof. Sanders' Diary—The Fictitious Knausch—His Part in the Tragedy.

FRESNO, April 26.—(Special Correspondence.) The murder of McWhirter and the escape of Chris Evans are crimes cast in the shade in comparison with the bold robbery and probable murder of William Wootton. Then, to add to this robbery and murder, the fact that Prof. W. A. Sanders, a man of large learning and a public school teacher of over thirty years' standing in this State, should be charged with the terrible crimes.

The case has but few equals in the criminal annals of the State. The man who "bumped" a friend of only a few days' acquaintance, or the man who dupes the unsophisticated farmer with the gold-brick racket, are criminals, because they have drifted into the paths of such callings. In this instance, it is a case of a man's steadfast and pretended friendship for a neighbor for a period of twenty years, and in the twentieth year to rob him, while the victim is rendered senseless by being drugged, and afterward to cause his "removal," another word for murder.

William Wootton settled in this county upward of thirty-five years ago and for twenty-five years he has been a member of the Visalia lodge of Odd Fellows. He was an Englishman by birth. He was a good citizen and respected by all who knew him. While only possessed of a common-school education, he was a money-making man, and a liberal with his fellow-men. By industrious habits he became possessed of over three thousand acres of as good land as there is in the county. He owned cattle and horses, and on two banks he could draw his check for any reasonable amount.

Prof. W. A. Sanders crossed the plains in the early sixties, and, with his parents, settled down in Tehama county. For a time he was principal of the Tehama school. Later on he drifted from the profession of school teaching to mining, and "Sanders's Bend" at one time was a well-known place among the miners of Northern California.

Disposing of his property interests in Tehama county Prof. Sanders came here. For upward of ten years he was the principal of many of the schools in the county, and the academy here. A better-posted man on botany and horticulture does not live in this middle section, and Sanders's ranch is a marvel to behold. Trees and shrubs from every known clime are in abundance. He has gathered together almost every plant or flower that would grow in Fresno county's fertile soil.

On any subject, from the days of Adam and Eve to the present unsettled condition of the country, the professor intelligently converses.

The contrast between William Wootton and Prof. Sanders, as far as intellect is concerned, can only be compared with the king of the forests and the fawn. One is mighty, and the other was weak. The professor, learned and cultured, has a family now growing into womanhood and manhood, and Wootton had none.

It is evident that the professor allowed an unseen power to grasp him in its power. Years ago he conceived the idea that he must possess William Wootton's (Sanders's neighbor and friend) ranch. To accomplish it he resorted to one of the almost untold,

and seemingly improbable, tactics of modern times. As opportunity offered itself, he poured into Wootton's ears the fathomless wealth of a friend, John Knausch, and also the fact that the latter-named party wanted to buy his (Wootton's) hundreds of acres.

There was and is no John Knausch. Prof. W. A. Sanders assumed the character of that mythical person. As far back as 1877 the professor began to mention the mythical John Knausch in his diary. It was the latest plot, and the study of a learned man.

The first entry as to Knausch in the diary referred to was April 27, 1887, and it read as follows: "Came to Riverside from San Diego. At Riverside called upon S. M. Holt, and then went over and inspected the Waite nursery. Found thousands of trees injured or killed by frost, but no scale."

"Went back to Colton for night to meet Mr. K. tomorrow."

"Met Mr. Jordan of Florida."

Detective A. B. Lawson of Lawson's Detective Agency of Los Angeles has carefully looked into the Knausch matter, and he states positively that the above is the first reference to the man who never existed.

On April 28, 1888, the professor's diary shows the following: "Came to Los Angeles by morning train. Traveled by street-cars about Los Angeles till noon, then took the train for Pasadena. Visited with Dr. Carr all afternoon. Took supper there. Rode to depot with Dr. Willis. Got back to Los Angeles at 9 evening."

"Jordan got off the train and Knausch got on at Ontario."

On Friday, April 29, 1887, the professor continued his diary record: "Took street-car rides about Los Angeles city till noon, then took the train for home."

On April 30 the professor writes in his diary that he met Knausch on the train en route to San Francisco.

In the twenty-five years secured by Detective Lawson there are probably a hundred references to Knausch, but none previous to 1887.

To carry out his deep-laid plans Sanders never lost an opportunity to build up Knausch's wealth to his neighbors. The professor handles his pen in an artful manner, and the praise of Knausch and his schemes were lauded to the skies. Letters directed to John Knausch passed through the mails to Sanders's postoffice. No real John Knausch ever opened them, because there was no such person.

The ability of the professor to write in many different styles afforded him a chance to assume a style for John Knausch. Experts pronounce the Knausch letters as in the handwriting of Sanders.

Years of talking about Knausch finally made his neighbors believe that there was such a man. William Wootton was made to think that Knausch was a real person.

For three weeks previous to February 1 Sanders spent four days out of each week at the Wootton ranch.

On February 1 William Wootton was seen to leave his ranch in company with Prof. W. A. Sanders.

William Wootton has never been seen since.

On February 3 Prof. Sanders placed on record deeds of all of William Wootton's land. The property was deeded, through cold fraud, to John Knausch, who never existed.

W. A. Sanders was the notary. The place of transfer was at Wootton's ranch. No one beside Sanders was seen on the ranch on the day the transfer was made.

Sanders says that \$20,000 cash was paid to Wootton by Knausch and a check for \$25,000 on a Los Angeles bank was given in addition. Lawson's agency ascertained that no check for the amount named, was cashed in Los Angeles in favor of either of the parties named.

Knausch deeded to a dummy the best and largest portion of the ranch. Sanders placed his seal on the deed. The

dummy deeded the land to W. A. Sanders, and a notary named Wright placed his seal upon the deed.

Sanders accomplished the act he worked for seven years to perform, but he is in jail.

Letters bearing William Wootton's forged signature and mailed from Los Angeles, San Fernando, Barstow and San Bernardino are being investigated by Detective Lawson.

LAMP EXPLOSION.

The Four-mile House Burned to the Ground.

Narrow Escape of the Inmates—Mrs. Vignola Loses Her Hair and is Severely Burned—The Monetary Loss.

At about 3:15 o'clock this morning a lamp exploded at the Four-mile House at Mondoville on the road to Santa Monica. The flames spread so rapidly that the inmates had no opportunity of saving anything, and were glad to escape with their lives. The building was a two-story frame structure, and when the flames once were fairly started they spread with the greatest rapidity. There were no facilities for extinguishing the fire as the place is some distance beyond the city limits, and the house was soon burned to the ground. Mrs. Vignola had her hair all burned from her head, the family having barely time enough to rush out in their night-clothes amid the roaring flames. Mrs. Vignola's face was blistered by the flames and she was quite severely scorched otherwise. No other accidents to the inmates were reported at the hour of going to press.

Several horses in the sheds were attracted by the flames and were with difficulty secured and led to places of safety. Neighbors did what they could to assist in caring for sufferers by the early morning blaze, but there was little to be done in the way of securing any effects.

Mrs. Vignola estimates the loss on the buildings and contents at about \$1500. In addition to this there was \$200 in gold coin and greenbacks in the house which it was impossible to save and a search will be made for the coin among the embers of the burned building. The inmates were thankful to have escaped with their lives, and though the monetary loss was heavy, they were not disposed to regard it as seriously as would have been the case otherwise.

Home at Night. When the chirping crickets fainter cry, And pale stars blossom in the sky, And twilight's gloom has dimmed the bloom, And blurred the butterfly,

When locust blossoms flick the walk, And up the lily stalk The glow-worm crawls and clings and falls And glimmers down the garden walls.

When buzzing things, with double wings Of crisp and raspy flutterings, Go whizzing by so very high One thinks of fangs and stings.

Oh, then, within, is stilled the din Of crib she rocks the baby in, And heart and gate and latch's weight Are lifted—and the lips of Kite.

AT THE COURTHOUSE.

THE COURTS.

A Decision on a Realty Contract from the Supreme Court.

A Supreme Court opinion, filed on April 27, was received by Deputy Clerk Senon yesterday in the case of Mattie Merrill, respondent, vs. F. H. Merrill, appellant.

The action was brought by the respondent as vendee to recover back a sum of money paid to the appellant, vendor, as a partial payment upon the purchase price of a certain tract of realty under a contract of sale. Respondent made no tender of the balance due, and demanded no deed, but alleged in her complaint that the defendant rescinded the contract, losing her right to recover upon the alleged acts constituting the rescission. She recovered judgment in the trial court and the appeal was taken.

The case has once before been heard by the Supreme Court, upon an appeal involving the sufficiency of the complaint in stating a cause of action. In the former decision it was recited that while the complaint was not perfect as an example of correct pleading, still sufficient facts were stated to constitute a cause of action for the recovery of the money paid by the defendant, this view being taken by the court upon the ground that the conduct of the defendant was such as to put him in default of the contract and that such default gave the plaintiff an immediate right of action to recover the money paid. It was in effect held that the acts alleged in the complaint constituted a rescission of the contract upon the part of the defendant.

In the present case the complaint stood exactly in the same position as it had before. The appellant insisted that in order to entitle respondent to recover the complaint should have stated that she was ready, able, and willing to carry out the terms of the contract, and that she should have introduced evidence at the time in support of such allegation. The law of the case was to the contrary, however, hence the judgment would be affirmed.

HARD ON JUNG.

Ah Jung, the Chinese fan-tan player, who was convicted by a jury in Department One Saturday, appeared yesterday for sentence. The court, after reciting the charge and the facts of the case, ordered that the defendant pay a fine of \$100 or serve fifty days in jail. As soon as the sentence was explained to him the defendant's face became very long and through the interpreter he said: "Judge, that is too much; I have an old mother to support and she will starve if I am shut up that long."

"Well," replied the court, shaking his eye-glasses and meditating in his usual profound manner, "that is sad. We hate to see any one starve to death and if your mother is really in want the Supervisors will be the proper persons to apply to for relief."

The Chinaman then collapsed and tears came to his eyes as the deputy sheriff led him away to the tanks.

FOR ARSON.

M. Castillo, the alleged Mexican, was on trial yesterday in Department One, charged with arson. The defendant resides on Upper Main street and he is accused of having, on February 8, set fire to the house of Augustine Samosa. The blaze was detected by Officer Valencia and another policeman and the origin of the fire was finally traced to Castillo.

NOT YET DECIDED.

A final decision was not reached in the Lacy divorce case yesterday, Judge Shaw taking the matter under advisement. Attorneys J. H. Shankland and M. L. Graft appeared at 2 o'clock in Department Five to represent their respective clients and at that time further testimony was taken and considerable argument indulged in.

Court Notes.

Alexander Strump was admitted to practice in the Supreme Court yesterday by Judge Smith.

Judge Shaw yesterday ordered that A. W. Ellis be discharged from insolvency.

Pavlo Frigerio and Josefa Balletto pleaded not guilty to the charge of grand larceny yesterday in Department One, the court setting June 11 for trial.

Santos Lano, the crazy Mexican who was brought here a lunatic commission Friday, was again examined yesterday and ordered committed to the asylum at Highlands.

Judge McKinley, who is said to have made a "hand-shaking" trip to the north, has returned and again occupied the bench yesterday in Department Six after two weeks absence. Margaret Tuiley was granted a divorce from Francis A. Tuiley yesterday by Judge York on grounds of desertion and failure to provide.

Judgment for plaintiff was entered yesterday in Department Four in the suit on promissory note of Bayright vs. Book.

New Suits.

Preliminary papers in the following new suits were filed with the County Clerk yesterday:

A. R. Sprague vs. Fairmont Land and Water Company; for \$2950 for services rendered.

Application of Olivia L. Stewart to become a sole trader. Judge Shaw granted the application of Chester Williams for an order permitting him to foreclose a mortgage against the defendant corporation in the case of James Gilbert Foster vs. the Bear Valley Irrigation Company, and to make the receivers for said company parties defendant therein.

That of W. B. Bowin for leave to use the receivers, and the demurrer already filed therein, were set for hearing on Friday next.

Pursuant to the stipulation filed therein in the case of Wells, Fargo & Co. and the Southern Pacific Company vs. George E. Gard, H. L. Rapelje, F. E.

THE FEDERAL COURTS.

Bear Valley Suits Before Judge Ross—General Business.

In the United States Circuit Court yesterday morning Judge Williams granted the application of Chester Williams for an order permitting him to foreclose a mortgage against the defendant corporation in the case of James Gilbert Foster vs. the Bear Valley Irrigation Company, and to make the receivers for said company parties defendant therein.

That of W. B. Bowin for leave to use the receivers, and the demurrer already filed therein, were set for hearing on Friday next.

Pursuant to the stipulation filed therein in the case of Wells, Fargo & Co. and the Southern Pacific Company vs. George E. Gard, H. L. Rapelje, F. E.

Jackson, Tom Burns and W. F. Hall, which arose out of the distribution of the reward offered for the capture of Evans and Sontag, was dismissed.

The bill of complaint in the case of W. B. Wall et al. vs. Henry Lock, was dismissed at complainant's cost on motion of the defendant.

Upon motion of G. J. Denis, Esq., and the presentation of certificates from the Supreme Court of this State, Byron M. Marble, Esq., was duly admitted to practice in the United States District Court by Judge Ross yesterday morning.

The six cases against Chinese, under the exclusion act, recently appealed from Commissioner Swenson's court, at San Diego, were set for hearing yesterday morning by Judge Ross on May 16 next.

A DREAMLAND PORTAL.

A gateway of the Columbian Fair, the wonderful Peristyle, was one of the most marvelous of all architectural productions. It will not profit us as a people to hurry on so fast to other and smaller things and so to forget the unexampled triumphs at Chicago in 1893. Let us look, then, for a moment at the architectural features of this famous Peristyle, not so long as Bernini's colonnades at Rome, but vastly more Titanic. It was a line of lofty arches, 500 feet long and 150 feet high, running from the Casino to the Music Hall, facing the lake on one side, and the Court of Honor on the other (and what an environment! Swept by the sea breeze, between its gigantic pillars and upon the high, uplifted roof. Along its top eighty-eight allegorical statues, of heroic proportions, broke the azure sky-line; and in the center crowning a still loftier triumphal arch, rose the vast group representing Columbus riding in a chariot, with four leaping horses led by noble and powerful female figures, their light drapery blowing in the wind. This mighty tableau of stately representation, the great admiral in the triumphal chariot, given in his honor after his return to Spain; and the firm and proud expression of the discoverer is perfectly shown forth as he leans lightly upon his jeweled scepter, with head thrown back in heroic pose. The designers were D. C. French and E. C. Potter, two of our foremost American sculptors in the field for sculpture, and the success of their daring conception was attested by millions of observers.

It is the thrilling descriptions of the planning and construction of such works as the Peristyle and their matchless pictures, which give a perennial charm to the new "Book of the Builders," whose writing has just been finished by Directors Burnham and Miller, who together know more about the fair than any other two men. The firm has incurred a large outlay to secure the making of a splendid popular edition of this book, as a premium for its patrons. It is very important to bear in mind that this edition is not a cheap reworking of an old book, condensed and made over to favor the present time demand for premiums. It is appearing in sections, step by step, in advance of the Edition de luxe of the same work, and all the essential and interesting features are preserved, as well as the choicest pictures. It is at once the newest, the most beautiful and the most complete and authentic story of the fair that has yet appeared, or that will appear.

Burglars Arraigned.

William Shafer was taken before Justice Austin yesterday and arraigned upon the charge of burglary, preferred against him, and was remanded, in default of \$1000 bail, to appear for examination this afternoon.

John Ryan appeared before Justice Seaman yesterday for examination upon the charge of petty larceny, with prior conviction, he being accused of having stolen two pairs of pants from F. Nougier's store, at No. 217 Aliso street, and was held to answer under bonds in the sum of \$3000.

Justice Seaman arraigned S. J. Painter upon the charge of burglary, preferred against him by W. H. Hodge, the tentmaker, and also arraigned William Moore upon the charge of having robbed Jacob Berilo. Both were remanded to insure their reappearance for examination, the former until tomorrow, and Moore until Friday.

He Was Despondent.

Coroner Cates held an inquest yesterday morning at El Monte upon the body of Frank Thurman, a native of Tennessee, who committed suicide on Sunday afternoon by taking strychnine, and the testimony disclosing the fact that the old man was despondent, the jury returned a verdict in accordance therewith.

HOW CARS GROW.

An Object Lesson in Railroad Growth.

California Rates Being Made by Way of St. Paul.

Excursions to See the Iron-clad Ship Monterey.

East-bound Travel is Picking Up Some—Pooling is Bound to Come Again—General and Local Railroad Notes.

An object lesson on the growth of railroads and their facilities was noticed yesterday on the Southern Pacific storage sidetrack, in East Los Angeles. Two box cars coupled together exemplified the progress made in a few years in the carriage of freight. One car was lettered for the Central Pacific, numbered 780, weight 21,400 pounds, was twenty-eight feet long and had an indicated capacity of 20,000 pounds. The other Southern Pacific car, No. 73,867, weight 28,100 pounds, length thirty-four feet, and a carrying capacity of 60,000 pounds. It will be seen that the car which can carry thirty tons is only 6,700 pounds heavier than the car which cannot be loaded with more than ten tons. These two cars, coupled together in a train, prove that a "carload" can be a most uncertain quantity.

CALIFORNIA VIA ST. PAUL. It is reported from Chicago that widespread trouble is being caused by a squabble among the Chicago-St. Paul lines as to the basis of California rates through the St. Paul gateway. A number of the roads which have no outlet for their business through the Missouri River gateway, and which short-line rates should apply through St. Paul. The other roads refuse absolutely to consent to such an arrangement. They urge there is no good reason for it on any ground that can be advanced. While they have been disputing over the matter, the Northern Pacific and Great Northern roads have announced, on their own account, a \$2.40 selling rate from St. Paul to San Francisco. They have tendered this rate as a basing rate to all their connections. Owing to the squabble among the Chicago-St. Paul lines, the rate cannot be shown in the Chicago rate sheets, until it is so shown in these Eastern lines, and the consequence is that the sum of locals from Eastern territory to San Francisco, via St. Paul, is considerably lower than the through rate, while the reverse should be the case.

O. R. & N. INTEREST PAYMENTS. NEW YORK, April 30.—A circular has been issued by the committee representing the consolidated mortgage 5 and 6 per cent. bonds of the Oregon Railway and Navigation Company, ordering bondholders to deposit their bonds on or before May 25. The committee states that the interest on no reason to believe that the interest on bonds due December 1, 1893, will be paid when due, and under these circumstances the desirable foreclosure proceedings be promptly begun.

SCRAP HEAP. The Phillips-Rock Island excursion, which will start East today, will occupy a fourteen-section car and six sections in the regular car, making a good-sized party.

The Judson-Chicago and Alton excursion, which started eastward yesterday, filed a special car. Jay B. Muller, agent for the Southern California road at Redondo, came to the city last evening on his way to attend the religious convention at Fresno.

An official of the Pennsylvania road says: "Pooling must come. It is as essential to our existence as traffic itself. Of what value is our road, no matter how great, if there is no profit in handling it?" In addition to the other trains, as announced, a special will run on the Southern California road to Redondo, leaving this city at 7 p.m. today for the ball at the hotel. Owing to the insufficient advertising the crowd that went to Redondo yesterday to see the iron-clad Monterey was not large, and only about four hundred people visited the vessel with the big guns. Excellent arrangements had been made on the wharf to handle the expected big crowds, and the tug Warrior and Pelican made regular trips to and from the great iron and steel structure lying like an immovable mass about half a mile from shore. The ocean was smooth, making the short voyage in the tug quite enjoyable. It is expected that a larger number of people will go down today, the excursion rates having been further reduced.

"THICK AS HOPS."

The Coming Campaign Viewed from a Distance.—Many Candidates. Signs of the times portend a spirited and perhaps bitter Republican campaign in State and county politics this fall. Shadows of coming events are already beginning to be cast across the public gaze, and almost before its newness is realized the storm promises to burst.

The farmer who plants his pumpkin patch in the spring-time drops many seeds in a hill, and, after the sprouts have reached up above the earth, he thins them out, leaving the strongest and best to remain. The number of seeds sown in the political pumpkin patch this year is legion, and although some aspiring shoots have shown themselves at this early date, there are still myriads of squashes yet to see the light of day.

Without carrying the metaphor further, it may be said that if the prophecy of the wise holds true, and the hypothesis assumed is a correct one, the State convention this year will be a "scrap" from beginning to end. From this county there will be Judge Clark and McKinley as candidates for the Supreme bench, and Trowbridge H. Ward, present County Clerk, as candidate for the State for the Supreme Court. Judge Clark has before been indicted by the bar of Los Angeles for the Supreme court, and his friends will urge him forward this time with great hopes of success.

Candidates for the same position are Superior Judges Williams of Ventura and Torrence of Santa Barbara. Mr. Ward had been inclined to think that his prospects for the clerkship depended in a measure upon the selection of the Supreme judges; that is, he rather believed that if a judge was chosen from this county, the convention would not be so free about letting the clerk go this way also. A somewhat different light is now thrown upon the situation by the resignation of Supreme Justice Patterson, for now the North can get two judges, and consequently the delegates will not be so strongly opposed to giving Los Angeles or Southern California the clerkship and one judge. Mr. Ward's opponents are all from the North, hence he will have no ad-

VERSARY TO INDUCE A "SPLITTING" EFFECT FROM HIS HOME DISTRICT.

Coming down to county politics the candidates thicker to regular army the four-year term proving an attraction which has had the effect of bringing out many who would otherwise have remained out of the race. For County Clerk, up to the present time, the list includes, according to report, T. E. Newlands of Whittier, U. S. G. Todd of Monterey, C. J. Fox, E. E. Danforth, W. H. Seams, Frank Lowry, C. W. Blake and John Dunsmoor. Thus far Lowry, Blake and Dunsmoor, present deputies under Mr. Ward, and T. E. Newlands appear to be well to the front. Rumor also has it that the three deputies mentioned have quietly agreed to pool issues and hang together when the convention comes, throwing their united strength in one direction.

The fight for sheriff will be between J. C. Cline, H. S. Clement, Eugene Maxwell, W. A. Hammel, Martin Aguirre, John Burr, L. D. Rogers and John E. Allen. All of these men have been announced as candidates, with odds apparently in favor of Cline, Clement and Hammel.

Several well-known attorneys have signified their desire and entire willingness to step into the shoes of Dist. Atty. Dillon, and their names are, J. A. Deneen, James Burdick, George M. Bolton, E. J. Meserve and H. H. Appel, their prospects ranking, as the public pulse seems to show, in the respective order named. Maj. McCall is the oldest of the number, and has had considerable experience in criminal matters at the bar in this as well as other States.

Assessor Gray announced not long since that he positively would not be a candidate for a second term, and to take his place in the county, Councilman Theodore Summerland and J. W. Hinton, present City Assessor, have laid their plans. As a possible candidate for the position Supervisor E. A. Forrester is also spoken of.

E. C. Hodgeman wants to be nominated for the Recorder'ship, and Arthur Bray would like to succeed himself.

L. C. Kellogg of Pomona will make a strong pull for the nomination of Auditor. F. E. Lopez will again make a "try" for his old place. E. G. Wood, who has also been in the office during the greater part of two terms as deputy, is another avowed candidate. Ex-Tax Collector A. B. Whitney will ask for the nomination to his old office, now held by E. E. Hewitt. He has as opponents A. H. Merwin and R. E. Wirsching.

Of the Board of Supervisors, Messrs. E. A. Forrester and J. W. Cook will retire at the end of the year. Just what Mr. Forrester's plans are is not known, any further than that his name has been mentioned in connection with the Assessor'ship, but J. W. Cook states that he expects to go out of politics. S. G. Woodward of Azusa would like to take Mr. Cook's place from the county, as would also C. C. Brown of Pasadena.

Councilman Munson, of the Third Ward, is the only prospective candidate who has made himself known as an aspirant for the honors to be relinquished by Supervisor Forrester. No one has yet indicated that he will the county office-seekers get down to hard work, but when they do some lively campaigning is looked for.

Collector Welborn Estimates That But Few of the Heathens Have Neglected to Take Out the Required Certificates.

(San Francisco Chronicle, Sunday.) On next Thursday the time allotted for registering coolies, provided for by the Geary-McCreary act, will expire, and Chinese laborers who have not complied with the law will be subject to deportation. At the close of business last night about forty-four thousand one hundred and forty-nine certificates had been issued throughout this district, and this number is expected to reach 46,000 on May 3. Collector Welborn estimates that those who are familiar with Chinese matters are confident that nearly every resident Chinese who is required to register has done so, and that it will be necessary to send very many back to China. There will certainly be no occasion for extending the time for registration, and the last United States census of the Chinese in the district was 51,377, and when those other than laborers are taken from that number it shows that the Chinese who remain in the district are about 25,000, but registration here will fall considerably below that number. Throughout the district the registration in the towns has exceeded the estimate.

At the close of business on last Thursday the number registered in some of the principal towns was as follows: San Francisco, 19,735; San Jose, 2919; Watsonville, 1814; Los Angeles, 4153; Santa Barbara, 1277; San Diego, 824; Fresno, 3639; Bakersfield, 1074; Stockton, 1004; Bennington, 710; Colton, 1286; Visalia, 534; Merced, 587; total in district, 42,649. To the latter figures an estimate of 1500 has been added for the registration of Friday and Saturday, which gives a total of 44,149 to date.

The delay occasioned by the authorities at Washington after the passage of the McCreary act was expected to prove disastrous, and it was generally predicted that it would be impossible to accommodate the applicants, especially in this district, which is the largest in Chinese population in the United States. Collector Welborn mapped out his work with a great amount of care and good judgment, and with the aid of fifty-eight deputies at work throughout the district he has been able to register nearly every coolie. He says that if any fail to obtain certificates it will be their fault and not his.

After May 3 the stubs of certificates, which have been issued in all parts of the district together with the duplicate photographs, will be sent to the Collector. After being received a thorough investigation will be made to learn whether duplicate certificates have been issued. It is believed that coolies have obtained certificates in one place and then have gone to another and secured a second. If this has been done it will be detected and the Chinese guilty of the act will be arrested and punished.

The Police Commissioners will meet this morning. Among the matters to come up is the application of E. J. McCormick for a saloon license at No. 419 South Main street. Action on the petition of P. H. Dominguez for a reconsideration of the revocation of his saloon license at Commercial and Wilmington streets, was last Tuesday laid over till today.

DUEL TO THE DEATH

The Details of the Monte Tragedy.

Maclovio Garcia the Name of the Man Killed.

Shot by Juan Oroscio Purely in Self Defense.

The Trouble Over a Young Mexican Woman With Whose Garcia Was Living—Oroscio Exonerated by the Coroner's Jury.

An inquest was held at Savannah by Coroner Cates yesterday afternoon upon the body of Maclovio Garcia, a native of Mexico, 28 years of age, who was shot and killed, presumably in self-defense, by Juan Oroscio, about four miles from El Monte Sunday last, as briefly stated in The Times yesterday morning.

From the testimony taken before the jury of inquisition it was gathered that young Garcia lived with a handsome Mexican girl named Ygnacia Bermudez in an adobe house on the El Monte road. On Sunday morning last, while the girl was sitting in the doorway of the house, a wagon, in which were six young Mexicans, drove by and the occupants, including Oroscio, called out to him in a disrespectful and familiar manner, considering the fact that they were strangers to her.

Shortly after the wagon had disappeared Garcia asked the girl what the men had said to her, and upon learning of their familiarity, mounted his horse and followed after them, evidently bent upon avenging their insults. He overtook the wagon about a mile from his house, and, riding alongside the vehicle, he inquired of a man named Oroscio and requested that individual to step down upon the road for a few minutes, as he wished to speak with him. Oroscio promptly acceded to the request, and the men walked several paces away from the wagon talking earnestly together. To the surprise of Oroscio's companions, who were joking and laughing in the wagon, shots were heard, and, on looking in the direction of the two men, they discovered that a duel was in progress. Garcia, who was armed with a small 32-caliber pistol, fired four shots, but Oroscio, who had a 44-caliber Colt's, only fired three times, his third shot striking Garcia in the head and killing him almost instantly. Oroscio escaped with a painful wound in his right hand.

Upon assuming himself that Garcia was dead, Oroscio and his companions drove back to El Monte and reported the affair to the local constable, to whom the survivor of the duel surrendered himself. The jury, upon learning these facts, returned a verdict that the deceased came to his death by a duel, and that Garcia was just the opposite, consequently the former has the sympathy of most of the residents of the Mexican quarters in the vicinity.

Sheriff Cline was on the scene early yesterday morning, but in view of the fact that the body of Garcia was not found until late in the afternoon, he did not take the youth into custody, and returned to town last evening.

THE POLICE COURTS.

The Usual Monday Grist Attended to by the Justices.

In the Police Court yesterday afternoon Justice Seaman fined six drunks \$2 each, and, upon convicting six tramps arrested by Constable Richardson, for sleeping in box cars, of vagrancy, allowed them twenty-four hours' time to leave the town before passing sentence upon them. Carlos Cropez was fined \$5 for having carried a concealed weapon, and Rosa Cook, a domestic upon conviction of vagrancy, was given a thirty-day "float."

The seven schoolboys recently convicted of having disturbed a religious meeting at Vincent Methodist Episcopal Church, were, at the request of the complainant, let off with a lecture by Justice Seaman upon the serious nature of their offense, and upon giving their individual promises never to so offend again.

Justice Austin fined a solitary drunk \$5, while Ah Sing and Ah Lee were fined \$15 and \$25, respectively, for having sold lottery tickets.

Dan McIntyre and W. K. Williams, the two tramps who created a disturbance at the Teutonia saloon the other night, were fined \$40 and \$75, respectively, in default of payment were committed to the City Jail.

The trial of the case against Barney Spilker, the bartender at the Resort saloon, who interfered with Officers Rice and Chen, when they arrested A. McGarry, was commenced, but went over until Thursday next, for further hearing.

ECHO OBSERVATORY.

Edward Swift Has Arrived With the Sixteen-inch Refracting Glass.

Edward Swift, the son and valuable assistant of Astronomer Swift, in his scientific work, arrived at Echo Mountain from the East, via the Santa Fe route, yesterday morning. The precious old glass of the great sixteen-inch refracting telescope, Dr. Swift discovered upward of two thousand nebulae, was intrusted to the care of young Swift, and he brought it safely through the long journey, and himself with his father's plans. They have about concluded to locate the Echo observatory on the rounded bench or shoulder which juts out from the face of the mountain, about one hundred feet below the summit, where he will be 1500 feet above the foothill mesa, and will have an unobstructed southern horizon, and his efficient comet-seeker will be able to sweep a zone of the celestial sphere 9 deg. further south than he was able to reach from the Rochester observatory.

TEMPERANCE TALKS.

Mrs. Mary Clement Leavitt, honorary life president of the World's Woman's Christian Temperance Union, will hold a series of meetings in this city for one week each afternoon and evening at the First Methodist Episcopal Church, beginning Sunday evening, May 13. These meetings will be held under the auspices of the Los Angeles Woman's Christian Temperance Union.

A GREAT CHANGE.

Criticising the Marshall and the Caroline Islanders.

What Has Been Accomplished by the Missionaries—Rev. Mr. Pease's Work During the Past Seven Years.

Rev. Dr. E. M. Pease, for seventeen years a Congregationalist missionary on the Marshall and Caroline Islands, has been in the city for the past week and is stopping at the residence of E. D. Sturtevant, No. 148 North Kern street.

Dr. Pease, together with his wife, left Springfield, Mass., seventeen years ago and located on what is known as Ebon Island in the Marshall group. Missions had been established some eighteen years before, and Dr. and Mrs. Pease took up the work that has since that time greatly increased. The Marshall group, it will be remembered, is situated nearly one thousand miles northeast of Australia.

About ten months of each year would be spent at the school and the two remaining months would be occupied in making a tour of the islands in the Marshall group and selecting the most promising of the native youths to be taken to the school and educated. Such youths would be kept in the school from three to four years and would then be sent out to teach their own people.

When missionary work was first started among the Marshall Islanders the natives had no written language, but only verbal means of communicating ideas. In the school the pupils would be given sufficient instruction in English, so that they could understand when they had occasion to trade with those aboard an English vessel, which might chance to come near them. The pupils would be instructed in the elementary branches such as arithmetic and geography, in their native tongue. They would also be taught to read and write in English, and the English alphabet and write the various words according to sound.

After conducting the school for about two years on Ebon Island, which was as strong as the island, in the Caroline group. The native name of the island is Kusaie. Since that time Dr. Pease has lived at that place for ten months of each year and spent two months out of every twelve in making a tour of the Marshall group in the matter and the place above indicated.

There have been churches established on fourteen of the Marshall Islands and within a few years it is expected that the remaining islands in the group will have churches established on them. All of the islands in the Marshall group are to a degree circular in form and of coral formation. In the most cases, the islands consist of a narrow strip of land, sometimes as much as fifty miles in length, inclosing a sea lagoon. The islands are level and seldom more than three or four feet above high water mark. The natives subsist mostly on bread fruit, coconuts and pandanus.

The first name of the islands, somewhat like a blackberry would be if magnified so as to be about twelve inches in length. The membership of the churches in the islands ranges from twenty to two hundred and the total membership about 1200.

Strong's Island in the Caroline group is of different formation and is apparently of volcanic origin. It contains a large number of hills and valleys although only about seven or eight miles in diameter. The climate, like that of most South Sea islands, is delightful. The temperature seldom varies more than 10 deg. Rain is frequent; there being showers usually on two days out of three. The soil is not as fertile as that of Southern California, but with so much sunshine and moisture vegetation grows with astonishing rapidity. Both the hills and the valleys are covered with a growth of trees and shrubs as green as emerald.

There are streams of water and quite a wide range of fruits is included in the productions. Notwithstanding there is so much heat and moisture the atmosphere is seldom sultry and the nights are cool. The average temperature is about 80 deg.

The Caroline group is under control of Spain. A protectorate was established over the Marshall group by Germany about seven years ago. German traders are located on nearly all of the islands in that group and have a main trading establishment on one of them. The principal commercial production furnished by the natives is prepared coconuts. For this they may purchase clothing and other things. Sometimes they are paid in money. They are very heavily taxed to the German government.

Regarding the changes that have within the past thirty-five years taken place in the Marshall Islands, Dr. Pease speaks in highly favorable terms. When it was first attempted to establish missions there, he says, the natives were strongly opposed to it. Reports had it that vessels which had previ-

ously landed there had had their crews murdered and been burned.

Since that time there has been a great change for the better. A large proportion of the natives have adopted the custom of wearing a style of clothing which, though not elegant, is all and more than decency requires. In connection with this it should be remembered that in such a mild climate scarcely any clothing is needed for comfort.

Again there has been a great change in the general characteristics of the people. There is now manifested scarcely any disposition to steal. As far as fear of robbery is concerned a person has no need to lock his house.

Violent Exercise.

Fat is a vulgar word. Too much adipose or obesity sounds better. But fat is plainer. You cannot reduce it by violent exercise. There are two kinds of fat.

The unhealthy adipose tissue, resulting from sedentary habits, or from forcing the appetite through stimulants; or from impure blood, or it may be hereditary. This is the kind that lays the possessor liable to heart disease, apoplexy, vertigo, etc.

Then there is the genuine, healthy, life-giving tissue, the result from regular and moderate habits, or if irregular habits, the taking regularly and according to directions, the famous Carlsbad Sprudel Salt. The salt will reduce unhealthy tissue and build in its place that firm and solid flesh which is the certain sign of perfect health. It is virtually taking the Carlsbad treatment in your home. Every drug store has it. The genuine has the signature of "Eisner & Mendelson Co., sole agents, New York," on the bottle.

Price per bottle, \$1.00; large size, \$1.50.

Signs of Health.

You don't have to look twice to detect them—bright eyes, bright color, bright smiles, bright in every action.

Disease is overcome only when weak tissue is replaced by the healthy kind. Scott's Emulsion of cod liver oil effects cure by building up sound flesh. It is agreeable to taste and easy of assimilation.

PASADENA.

The City Council in Session—Business Transacted.

Matters Relating to the Public Schools—Personal and Social Notes—The Local News Briefly Summed Up.

PASADENA, April 30.—(Special Correspondence.) The City Council met in regular session at 2 o'clock Monday afternoon, Mayor Lukens presiding, and all the Trustees were present.

All bills filed to date were referred to the Committee on Auditing and Finance without reading.

May Nolan, local agent of the Terminal, addressed the board, complaining of the blockade which the drivers of public carriages sometimes make at the station, to the inconvenience of the traveling public. The matter was referred to the committee on Ordinance and Judiciary.

An ordinance was passed adopting specifications for a sewer on Raymond avenue, between 11th and 12th streets, and a resolution was passed ordering the work, outlining the district affected, and the property upon which the cost shall be levied.

J. A. Buchanan, having entered upon his duties as Street Superintendent, handed in his resignation as a member of the Board of Street Commissioners, having charge of the matter of widening Pasadena avenue. Mr. Williams was appointed to fill the vacancy.

The Auditing Committee recommended the payment of the bill of the City Engineer for the month of March, \$239.50. The report was approved and the necessary warrants ordered drawn.

On motion the City Engineer was appointed to the committee on Fire and Water and was instructed to dispose of the old and imperfect hose and to purchase new hose.

Bids were opened as follows for grading and laying a cobblestone curb on Lincoln avenue, between 11th and 12th streets, and Mountain street: Hogan Bros., curb 14 cents, grading 44 cents; Charles Mueller, curb 14 cents, grading 34 cents; John Showalter, curb 14 cents, grading 40 cents; Fred Olschewsky, curb 13 cents, grading 34 cents.

Similar action was taken in the matter of the following bids for work on Lake avenue, between 11th and 12th streets: Hogan Bros., curb 15 cents, grading 44 cents; Charles Mueller, curb 14 cents, grading 34 cents; John Showalter, curb 13 cents, grading 34 cents; Fred Olschewsky, curb 13 cents, grading 34 cents.

At the request of J. S. Torrance, the City Engineer was instructed to make a survey establishing the official grade of the alley running east from Raymond Lake in the public market.

A communication was read from George H. Rogers, accepting the conditions of the resolution for the extension of the time until January 1 next for the construction and operation of an electric road over the Highland Street Railway Company.

A paper was read, signed by numerous property-owners, to the effect that they are in favor of the extension of the time until January 1 next for the construction and operation of an electric road over the Highland Street Railway Company.

Sections were read to have electric cars at the intersection of 11th and 12th streets, and at the intersection of 11th and 12th streets, and at the intersection of 11th and 12th streets.

John Showalter was granted ten days' extension of time to complete the work on Madeline drive.

Ten permits were reported as having been issued by the City Engineer for the extension of the time until January 1 next for the construction and operation of an electric road over the Highland Street Railway Company.

The appointment of F. P. Boynton as a deputy assessor was confirmed.

Following is a synopsis of Supervising Principal J. D. Graham's report on the public schools, first to eleventh years inclusive, for the month ending April 27:

Number of holidays, none; number of days taught, 28; whole number of days' attendance, 13,750; number of pupils, 1,238; whole number of tardiness, 128; number of excuses for tardiness, 97; whole number of truancies, 128; number of pupils, 1,238; whole number of tardiness, 128; number of excuses for tardiness, 97.

RAYMOND IMPROVEMENTS.

Walter Raymond, who is spending the week with Mrs. Raymond at Hotel Green, stated to the reporter Monday that plans for some noticeable improvements and additions to the Raymond Hotel are under consideration. The hotel will probably be carried out this summer. The past winter the house was crowded to overflowing, and there was no room for more.

It is likely that additions will be built on the east and west sides of the main room, so as to increase the capacity of the hotel. The hotel is a fine building, and it is probable that the additions will be built on the east and west sides of the main room.

PASADENA BREVITIES.

(Star) Rev. Father Hickey of Los Angeles, who preached in the Catholic Church here yesterday, accompanied by Father Grogan and Messrs. McIntyre and Fishery on a drive about town and the valley in the afternoon. There is a prospect of a new Catholic church being built here soon, and it is probable that the additions will be built on the east and west sides of the main room.

At a meeting of the school board of trustees held Monday morning, it was decided to call a special election for June 1, to pass upon the question of issuing bonds to the amount of \$25,000 for the purpose of buying and putting up a building on one of them.

Manager Lynch of Hotel Redondo drove from Los Angeles Monday morning with a party of United States naval officers and their lady friends in a four-horse team, which was driven by a driver after which a drive about town was enjoyed.

ORANGE COUNTY.

Another Important Real Estate Sale Consummated.

Fifty Thousand Dollars' Worth of Realty Changes Hands—May Day Weddings—Newspapers and Personal.

SANTA ANA, April 30.—(Special Correspondence.) Another important real estate sale has just been consummated in the northern portion of the county, which emphasizes the fact that Orange county realty is being rapidly cleared up.

The sale referred to has been made by James A. Whitaker, who disposes of 220 acres at Santa Ana, to L. G. McKnight, the consideration being \$25,000. Mr. Whitaker, however, takes in exchange for this property one fifty-acre and one thirty-acre ranch near Orange, the former being a portion of the well-known A. B. Chapman tract.

MAY DAY MARRIAGES.

It has been almost a month since the County Clerk of this county has issued a marriage license, but this was broken today, and three of the precious parchments were issued in a fifty after the clerk adjusted his glasses, and started in on the work. The applicants were all from the suburban districts except the bride, who hailed from the City of the Angels.

William T. Hammer, aged 27 years, and Mary, aged 24 years, both residents of Bala, were married at 28 years, and Esther E. Hamler, aged 24 years, and George Young, minister, Loren Schneider, aged 30 years, and Jane Calhoun, aged 30 years, were married at 30 years.

SANTA ANA BREVITIES.

In the case of Ben H. Hiss and J. R. Gill against J. W. J. Cullen, concerning a contract to rent land at Garden Grove and supply water, the case was brought to a focus several days last, when the jury returned a verdict for the plaintiff in the sum of \$10,000.

Hay-making is now fairly under way, and while the harvest is not yet in, it is a little short, there will be a good deal more of it than has been anticipated by the farmers.

A meeting of the new Santa Ana Ice Company was recently held in the Brunswick Hotel, and the officers of the company were appointed. The organization is George Wilton of Santa Ana, W. H. Burman, of Orange, and C. C. Fife of Santa Ana.

John Brown, the young man who was arrested about two weeks ago for stealing a bicycle in the city, was released today. His attorney asked for an order to commit him to the Reform School at Whittier, but the court refused.

A special programme has been arranged for the evening of May 1st, at 1 o'clock. Raymond's Klamath and several other local societies have been invited to participate, and a general good time is anticipated.

The commission of the Santa Ana postmaster expired today, and such a case has come as a surprise to the community. The suspension is something terrible, at least for the candidate.

The regular meeting of the directors of the Orange County Chamber of Commerce will be held this (Tuesday) evening in the office of the secretary in the First National Bank building.

There will be a called meeting of the Board of Supervisors of the County of Orange, California, on May 1st, at 1 o'clock, from the residence of Mrs. J. H. Stanger and Mrs. J. H. Stanger, at 1 o'clock, from the residence of Mrs. J. H. Stanger and Mrs. J. H. Stanger.

POMONA.

Specializing on Hay—News Notes and Personal.

POMONA, April 30.—(Special Correspondence.) There are many farmers in Pomona Valley who believe the price of hay here will not go above \$15 a ton at any time during the summer season, notwithstanding this will probably be the driest year for farming known in California since 1878.

There have been some people who believe that hay might go to \$20 a ton before the season is over, but the opinion seems to obtain that there is no chance of hay going above \$15 a ton.

There are many farmers hereabouts who are stocked with baled hay, and there are so many acres of alfalfa in and about Pomona that the value of hay will not rise to anywhere near \$20 a ton. One or two men in this locality who invested in alfalfa hay as a speculation last November, and have kept their product unsold, now will receive from 100 to 150 per cent. on their outlay.

Roses, roses everywhere about the valley, and the roses are in full bloom. In its full glory more which is three weeks later than that of last year. The Pomona public schools for fourteen years shows that the number of pupils has increased from 1,000 to 1,500 in the last year, and never before, with but one exception, that of the twelve months ending May, 1888, there were 1,000 pupils in our schools. In 1889 there were 1,100, and in 1890 there were 1,200.

More Pomona people going to the Midwinter Fair at San Francisco than any other city in the county, and many are planning to go to San Francisco for a visit of a week or two.

The Supervisors Repeal the Jackrabbit Bounty.

This Action Made Necessary by the Extensive Frands Which It Was Found Impossible to Guard Against.

SAN BERNARDINO, April 30.—(Special Correspondence.) At the meeting of the County Supervisors this afternoon, the Jackrabbit bounty was repealed, to take effect at once, as the following resolution shows: "Whereas, many of the farmers engaged in the destruction of jackrabbits have done so from honest motives and have presented honest claims therefor; and whereas, many of the farmers have not done so, and it is evident that ordinance No. 56, known as the 'Jackrabbit Ordinance,' is made use of for the purpose of defrauding the county, and as it is found to be impossible to detect and punish the parties engaged in the fraudulent practice, it is hereby

Resolved, that the said ordinance be and it is hereby repealed, to take effect immediately.

The ordinance provided for a bounty of 25 cents each for the scalps of jackrabbits killed in this county, and was repealed last month for three months, but the abuse of the ordinance by bringing so great the number of jackrabbits to the county, that the bounty was repealed.

The above resolution was introduced by the Supervisor of Redlands, and passed by a unanimous vote of 10 to 0.

RIVERSIDE, April 30.—(Special Correspondence.) The City Trustees will meet tomorrow afternoon, at which time the superintendent of fumigation is expected to submit the report asked for, giving the names of all persons owing the city for fumigation, those having trees to fumigate, and the number of trees each has. There has been considerable difficulty experienced by the superintendent of fumigation in collecting from the orchardists for the trees fumigated.

MAY FESTIVAL.

The first presentation of the May Festival programme, in which 200 voices will participate, will be on Tuesday evening of this week in this city. Besides the additions to the chorus from the Highlands and Redlands, there will be vocal solos by Miss Roslyn Sargent of San Bernardino and Miss Nellie Fowler of Redlands. The rehearsals for this musical festival have been in progress for some weeks, O. Stewart Taylor of Pasadena being the instructor.

COUNTY TAXES.

The County Tax Collector's office has been a busy place for some days past, because of this being the last day upon which taxes may be paid without becoming delinquent. There was received for taxes on Saturday over \$10,000, and half that amount was received this forenoon. During the afternoon a great rush was expected, as there would be a pretty large delinquent tax list.

Ships that Pass in the Night

Our great Carter & Machin Sale opened gloriously yesterday. The little boys of the mercantile world are trying to "stem the tide" flowing our way. "A house in Boston fails," says one, and the goods come by wire from Beaverville in two days. Another Kindergarten pupil in Merchandising has the stock "in transit," so they squirm. They are "the ships that pass in the night, and are never spoken in passing."

50/100 Fifty Cents on the Dollar. 50/100

Carter & Machin's stock comprised the highest class furnishings in this market. Every article was bought by us from Sheriff J. C. Cline under the hammer. At under-the-hammer prices it goes.

In the free-for-all race of trade competition we have entered the Jas. E. Patton Co.'s Pure Mixed Paints at \$1.50 per gallon and the Princess Floor Paints in six shades at \$1.25. Either of these is a sure winner, for their records have not yet been broken. There was once a man who bit off his nose to spite his face and there are some consumers who won't patronize us; doing that now when they pay more for material than the prices we quote:
